Winner

Tricolour livery, advanced technical solutions, flexibility of use and higher performance: improved strength, safer during multiple handlings of bales, better bale coverage.

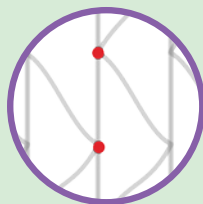

This is Winner®'s exclusive "business card": a technologically advanced net, the "made in Italy" flagship in this sector. The Novatex's 5-star netwrap!

Exclusive product properties guarantee perfect bales. For safe protection even with frequent reloading. Do not risk the value of your harvest through a second-class round bale network, invest in quality!

Length	3600 m
Width	123 cm
Max. roll diameter	28 cm
Average strength	280 kg
Type of mesh	*MS (narrow mesh)

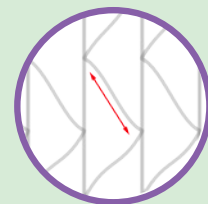

► MESHES WITH FEWER KNOTS

Knots are the critical points of any thread. Novatex net wraps have half the number of knots compared to any other net wrap for balers. This means more resistance to breakage over time, even after repeated handling.

► MORE WEF T DENSITY

Novatex net wraps have a greater number of meshes per linear metre. This increased density creates net wrap anchoring points leading to superior capacity in retaining the crop.

► FLEXIBLE GEOMETRY

The Novatex Narrow Mesh is softer than the standard net wraps available on the market. This is because the reduced number of tension points (knots) allow natural movement of the weft, leaving it free to stretch in width and significantly improves "edge-to-edge" coverage of the bale.
