Westfalia Novatex

Westfalia Novatex® is a trademark evoking in its users values such as quality, performance and reliability.

New elements of success enrich the balance between elasticity, coverage, flexibility.

Westfalia Novatex® has a wide asymmetrical green stripe, to identify right and left edges.

Westfalia Novatex® confirms itself as unique, even more resistant, even more covering and is ready to relaunch the challenge on the market.

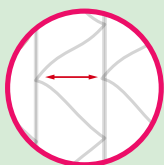

Westfalia NOVATEX

Exclusive product properties guarantee perfect bales. For safe protection even with frequent reloading. Do not risk the value of your harvest through a second-class round bale network, invest in quality!

| Length | 3600 m |
| Width | 123 cm |
| Max. roll diameter | 28 cm |
| Average strength | 270 kg |
| Type of mesh | medium mesh |

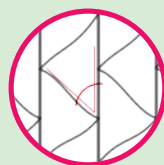

► Medium sized mesh

ME is a performing solution that allow to produce netwraps made of 37 chains with reinforced and thicker threads.

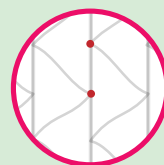

► Thicker & Stronger chains

Novatex ME mesh is made of stronger and thicker threads, ensuring higher strength and more ability to withstand repetitive handling.

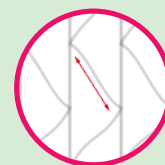

► Better cling on the crops

The ME Tech ensures optimal cling on the crops. Thanks to the wider angle of the weft, the ME netwraps hook up fast and easily.

► Mesh with fewer knots

Knots are the critical points of any thread. Novatex ME netwraps have half the number of knots with respect to standard netwraps.

► Flexible geometry

The reduced number of tension points (knots) aid natural movement of the weft, leaving it free to stretch in width.
