ME+ Exclusive Technology

► Higher Specific Strength

ME+ technology gives the threads an incredibly superior Specific Strength: perfect protection of the forage over time.

► Thicker & Stronger chains

Novatex ME+ mesh is made of stronger and thicker threads, ensuring higher strength and more ability to withstand repetitive handling.

► Better cling on the crops

The ME+ Tech ensures optimal cling on the crops. Thanks to the wider angle of the weft, the ME net wraps hook up fast and easily.

► Mesh with fewer knots

Knots are the critical points of any thread. Novatex ME+ net-wraps have half the number of knots with respect to standard net wraps.

► Eco Friendly

The proven increase in strength of Novatex ME+ nets has allowed a significant reduction in the use of plastic while maintaining the highest standards available.

REDUCED CARBON FOOTPRINT

Novatex's ME+ technology cuts plastic use per roll by over 13,5%, leading to a significant reduction in CO₂ emissions!

Made in Italy,
specifically
for Wales

Blue Dragon is a high-performance net wrap designed to provide superior crop protection and bale security. It tightly secures each bale, maintaining a firm shape while improving water shedding to preserve forage quality and ensure ultra reliable performance in all conditions.

With wide coloured edges that enhance visibility on both dark and light forage, allowing for easier handling and identification, Blue Dragon is the dependable baling choice for farmers and hay producers.

Roll length	3600 m
Roll width	123 cm
Max. roll diameter	26 cm
Mesh type	*ME+
